492 Weekly Report 12

Team: Dec15-13
Date: August 31st
Advisor: George Amariucai
Project: Ad Hoc Mobile Network
Members: Cole Cummings
                   Cody Lougee
                   Ethan Niemeyer

Summary

We've all started to look over Swift and the project again to get a refresher

Group Meeting Notes

We didn't have a group meeting yet this week

Advisor Meeting Notes

Set up a weekly meeting time of Tuesday mornings at 9 am. We lost Holden this semester. Discussed DSR and encryption some, decided on tasks for next week for everyone.
Cody - ways to deploy app
Update Website - Ethan
Integrate code - Everyone, Cole getting tables from old prototype and adding them to new prototype timeline
arrange mass experiment
How will IP addresses/Identification of devices be handled when joining a network?

Plans For Next Week

listed above, also we are all starting to work in Swift again

Pending Issues

none right now
