

492 Weekly Report 25

Team: Dec15-13
Date: 12/5/15
Advisor: George Amariuca
Project: Ad Hoc Mobile Network
Members: Cole Cummings
Cody Lougee
Ethan Niemeyer

Summary

Spent this week testing and fixing bugs. Finished up the final document and poster.

Group Meeting Notes

Group meeting was spent updating the design document and poster, reminiscing about last semester and all that we've learned, and lamenting the loss of Holden.

Advisor Meeting Notes

Tried to demo, but a UI bug prevented the app from working. Bug was related to size of elements on screen and should be easy to fix.

Accomplishments

Pulled the back end and front end completely together. We were finally able to test on iPads.

Plans For Next Week

Fix sizing bug and demo on physical devices. Finish final presentation and practice.

Pending Issues

Sizing bug

Threading issue causes occasional crashes on long messages/messages sent at the same time. Hard to debug.

Individual Contribution

Team Member	Hours	Descriptions
Cole Cummings	8	Final document, poster, and connecting front end and back end.
Cody Lougee	8	Final document, poster, and connecting front end and back end.
Ethan Niemeyer	8	Final document, poster, and connecting front end and back end.

Total Contribution

Team Member	Hours
Cole Cummings	96
Cody Lougee	82
Ethan Niemeyer	79
