# 492 Weekly Report 17

**Team:**      Dec15-13
**Date:**      10/10/15
**Advisor:**   George Amariucai
**Project:**   Ad Hoc Mobile Network
**Members:**  Cole Cummings
               Cody Lougee
               Ethan Niemeyer

## Summary

UI is starting to come together, Cole and Cody are working on navigation menus for that and Ethan is working on backend

## Group Meeting Notes

Talked about connecting the back and front end.

## Advisor Meeting Notes

Considering cutting streaming from the application at this point due to time constraints
Heartbeat may replace hello messages, still mostly following DSR

## Accomplishments

Front end mostly done for sign in and home page, chat and table views still need a lot of work

## Plans For Next Week

Work on implementing heartbeat and additional UI elements.

## Pending Issues

CoreData is broken so we are considering using Realm

## Individual Contribution

| Team Member | Hours | Descriptions |
|---|---|---|
| Cole Cummings | 5 | Created basic homepage in UI application. Apple changed CoreData so we are adding Realm into the project |
| Cody Lougee | 4 | Worked on various UI windows and associated logic. |
| Ethan Niemeyer | 6 | Started making heartbeat and looking at potential applications |

## Total Contribution

| Team Member | Hours |
|---|---|
| Cole Cummings | 55 |
| Cody Lougee | 54 |
| Ethan Niemeyer | 51 |
